+ Mirion Systems Patented ICC Technology

Mirion Systems' Patented ICC (Intelli Comparing and Capturing) technology is incorporated into WinCAM 2000, it can compresses files up to the ratio of 1000:1.

+ World's First Interactive Feature

Developed for tutorials, training manuals and presentations, WinCAM 2000's interactive feature provides users with an innovative multimedia experience. WinCAM 2000 Interactive Multimedia Service Edition includes features providing users to participate interactively with the presentation program.

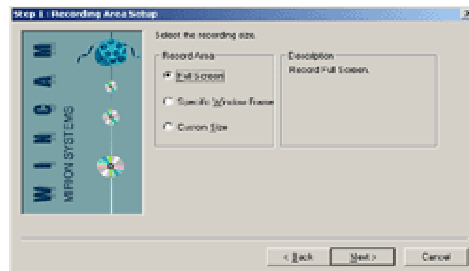

+ Multi-Platform Support

WinCAM 2000 is compatible with Windows 95 / 98 / Me / 2000 / NT 4.0 / XP, and is also the world's first Linux compatible screen capturing software. WinCAM 2000 for Linux must be acquired separately.

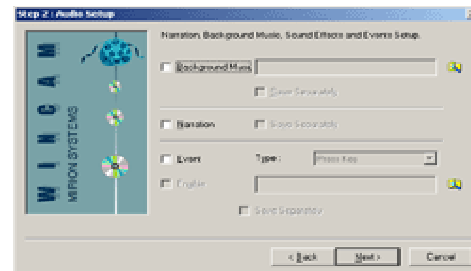

+ Intuitive Interface

WinCAM 2000 captures everything on your computer screen in full motion, and records it as a movie file. Adding narration, background music and sound effects are very simple using the Recording Wizard.
